Carolyn - I have to agree with Brad. Every attempt confused me as it attempted to combine different screening levels. Separate maps might take more discussion but would be beneficial.

Carolyn

We evaluated this request and I do not believe it is possible to create/present this map in a manner that is easy to view/understand. It simply gets too confusing trying to overlay plume extents from different medias. Sorry.

Sincerely,

Thanks Brad.

Are you able to combine the three plumes into one that shows the area of VOCs above screening levels?

**Subject:** Confidential - Draft Sewer Manhole Sampling Maps

Carolyn

Good afternoon. Please see the updated, draft combined iso maps for the sewer manhole sampling events. Please let us know if you have questions or need anything else.

Sincerely,
